Qualitative Business Highlights

- Having entered the start-up ecosystem as a value-added Investment Banker, Prime has been successful in **closing over 18 fund raising deals** since starting this practice.
- The Company has signed an agreement with Bridgeweave Limited (Bridgeweave UK), a UK based Artificial Intelligence / Machine Learning-based technology company, that has developed a suite of financial products for retail investors. The two-step process to acquire a majority / 100% ownership in Bridgeweave UK will involve an 8% equity stake for cash and a 92% equity stake through a stock swap.

This transformational step could result in a significant non-linear, asymmetric growth, granularizing revenues through exposure to retail consumers, using a B2B2C model that eliminates high customer acquisition costs. Cutting edge, next generation technology will be at the root of this initiative.

While investors should note that the advisory business does not lend itself to quarterly or annual comparisons, it is equally important to highlight that both, the number and size of deals, have been steadily rising. The management remains extremely optimistic on the prospects of the Company over the next few years.
